### **Big Darby Town Center Master Plan**

The Big Darby Accord envisions a highly desirable mixed-use area that includes a full range of residential, retail, office and public uses including parks and open space.

We will be reviewing comments from the October and December 2009 meetings. We will also be presenting an analysis of the stakeholder and focus group discussions, reviewing the agenda for the three-day design charrette and discussing the next steps in the process.

Your continued participation will help establish detailed recommendations for the development of the Town Center.
